Professional Summary

Detail-oriented Bachelor of Computer Applications (BCA) student with a strong foundation in programming, data structures, database management systems, and object-oriented programming. Proficient in C, C++, Java, Python, and web development technologies. Passionate about software development, problem solving, and continuous learning. Seeking an entry-level IT role or software development internship to apply technical knowledge in a real-world environment.

Core Competencies

- Programming Fundamentals
- Object-Oriented Programming (OOP)
- Data Structures and Algorithms (Basic)
- Database Management Systems (DBMS)
- Software Development Life Cycle (SDLC)
- Debugging and Logical Problem Solving

Education

Bachelor of Computer Applications (BCA)

Annada College, Vinoba Bhave University	2023 – 2026
CGPA: 8.0	

Higher Secondary (12th)	
CBSE Board	2023
Percentage: 68%	

Secondary (10th)	
ICSE Board	2021
Percentage: 89%	

Technical Skills

- Programming Languages: C, C++, Java (Basic), Python (Basic)
- Web Technologies: HTML, CSS, JavaScript (Basic)
- Database Systems: MySQL
- Developer Tools: MS Word, Excel, PowerPoint
- Operating Systems: Windows, Linux (Basic)

Academic Projects

- Learning Management System (LMS)

Developed a web-based Learning Management System to manage academic content and student progress. Implemented core features including user authentication, course management, content upload, and progress tracking. Designed responsive user interfaces using HTML and CSS and managed backend data storage and retrieval using MySQL. Improved system usability, data organization, and ensured basic security practices.

- AI Coach – Intelligent Learning Assistant

Designed and developed an AI-powered learning assistant to provide personalized academic guidance and study support. Integrated a user-friendly frontend with backend logic to generate intelligent responses based on user queries. Assisted users with topic recommendations, learning paths, and conceptual understanding, enhancing self-learning efficiency and engagement.

- College Academic Project

Completed a major college-level academic project as part of the BCA curriculum by applying core concepts of programming, database management systems, and software development life cycle (SDLC). The project involved requirement analysis, system design, implementation, testing, and documentation. Strengthened skills in logical problem solving, debugging, and team collaboration.

Soft Skills

- Analytical Thinking
- Effective Communication
- Team Collaboration
- Adaptability and Quick Learning
- Time Management

Extra-Curricular Activities

- Participated in coding competitions and technical seminars
- Active member of National Service Scheme (NSS)
- Volunteered in academic, cultural, and social college events
- Participated in inter-college sports activities
- National bronze medalist in SQAY
- State silver medalist in Boxing and Muay Thai
- District gold medalist in Taekwondo
